Colonials' Manager Davi
Promises Game; Zucca's
Statement

"It's the worst break I've had in promoting baseball," said Manager Fred Davi, of the Kingston Colonials, referring to last night's unfortunate occurrence at the new Municipal Stadium when the lighting system failed to arrive in time for the State League game with the Mohawk Giants.

Some 1,200 baseball fans, who had paid admission to see the Colonials and Mohawks, left the up-town park an hour after the scheduled time for starting the game, and at least 800, according to Davi, stood outside waiting for the lights to be turned on before paying.

This great disappointment to the Colonial management, which hoped for a break in attendance, and to the fans was caused by three flat tires on the big truck transporting the lighting system that was to have been used in illuminating the field.

Zucca's Statement

Alderman Paul Zucca, of the building and supplies committee in charge of the stadium, said he had advised Davi to call off the game at 7:30 and not to open the box office. "Our committee is in no way responsible for what happened," he said.

The truck was marooned on the Ashokan road about 12 miles outside of Kingston, and because of difficulty in procuring new tires for the dual rear wheels, the car did not arrive in time here until 3 o'clock this morning Manager Davi said.

"We're going to make every effort," he told a reporter this morning, "to have playing conditions just right for tonight's game at 9 o'clock, and prevent any disappointment on the part of the fans."

"Worst Break"

"Last night's occurrence was the worst and most unfortunate break I've had since promoting baseball," said the sporting up-town beauty parlor operator, "and made me feel terrible. Not only was the mishap the cause of disappointing the Colonial fans, but it slipped our treasury hard right now when we need the money because of reverses this season."

Davi and his Colonial players felt as depressed as the paying customers. "We are sorry it had to happen," he said, "and ask that the baseball fans bear with us and return for tonight's game."

Good Light Plant

Concerning the lighting plant, Davi classed it as one of the best portable outfitts in use. "The truck was enroute to Kingston from Oneonta, where it furnished light for the 6-5 game the Mohawks won from the town team, which was attended by approximately 6,000 fans," he said.

The system has been used for night games in Oneonta, Cooperstown, Glens Falls, Rome, Watertown and other upstate communities where baseball is popular.

Explaining the accident that prevented the plant from arriving in time for last night's game, Manager Davi told reporters that two tire blowouts held up the truck 12 miles from Kingston. Difficulty was encountered in procuring rubber for the dual wheels and the result was that the car did not arrive until 3 o'clock this morning.

Knew of Mishap at 5 p. m.

Asked about the first notification he received concerning the stranded truck, Davi said word had been delivered by a "Good Humor" man, from the lighting plant driver, to Alderman Paul Zucca around 5 o'clock. "I was notified then," Davi said, "and tried to help out on the tire situation."

Alderman Zucca's statement was that he advised Davi to take quick action, and do something so that there would be no disappointment on the part of the fans. "Davi told me of the difficulty he ran into trying to help move the lighting plant and when there was no solution at 7:30 o'clock, I advised him to call off the game and not to open the box office." Alderman Zucca told a Freeman sports writer.

Committee Not to Blame

Alderman Zucca, who is chairman of the building and supplies committee in charge of the stadium, said he wanted the public to know that his committee is in no way responsible for last night's mishap. "Davi agreed at 7:30 to postpone the game, and I left Kingston on a business mission thinking that everything had been

TOKYO—Efforts for outright military alliance with Germany and Italy given impetus by growing belief of Japanese army circles that Britain and United States cooperate to check Japan in Far East.

MILAN—Italian army advance units converge for war games near French frontier.

Prompted by Militarists
(By the Associated Press)

Talk about the possibility of Japan forming an outright military alliance with Germany and Italy gained impetus today as Britain and France prepared for military staff talks with Soviet Russia.

After a meeting of high officers last night, informed Tokyo quarters said the army and ultra-nationalistic elements had gained new ammunition in their campaign for such a military link to the Rome-Berlin axis.

Their hand was strengthened by two recent developments—the United States' abrogation of her 1911 trade treaty with Japan and announcement that a British-French mission would leave soon for Moscow.

In Japanese army circles there is a growing conviction that Britain and the United States are cooperating to hinder Japan's Far Eastern policies.

Flood Ends Blockade
Flood waters seemed likely, however, to accomplish what the British have been unable to do by diplomacy to do at Tientsin—the seven-weeks-old Japanese blockade of the British and French concessions.

Rising waters threatened two bridges upstream from the French concession and if they are swept away, the Japanese would be forced to direct all trans-river traffic over a bridge into the international settlement and thus cease many restrictions to travel.

Political opponents of Prime Minister Chamberlain expressed fear that parliament's failure to constitute itself a watch dog on international policy during the August-September recess would result in "another Munich."

The opposition sought to have parliament set a one-day interim session August 21, but lost their fight yesterday, 250 to 132, when Chamberlain made the issue a test of confidence.

Liberal Goeffrey Mander said the anti-appeasement group feared "that directly parliament is up (recessed), there will be a tremendous move in the direction of appeasement x x x" by the Chamberlain government.

Further fighting on the frontier between Manchukuo and outer Mongolia was reported by a Dome (Japanese news agency) dispatch which said 69 enemy planes, presumably Soviet Russian, had been shot down in four days.

Dollar Day Plans

Plans for the merchant-employee second annual outing to be held at Williams Lake Thursday, August 17, were discussed at a monthly meeting of the Uptown Business Men's Association this morning.

Arrangements will be made by the management of the lake for at least 600 people and should the attendance be greater there will be ample for all. At the outing last year, which was the first cooperative outing in many years, the attendance far exceeded the expectations and the management of the lake was hard-pressed to care for all.

An early close of stores has been arranged and present plans are for the serving of sandwiches at 1 o'clock, making it unnecessary (Continued on Page 15)

Senator R. A. Taft
Willing to Become

Son of Former President
Gives His Position in a
Letter to the Cincinnati
Chairman

'Up to Ohioans'

Says He Likes His Present
Job, but Would Take
Presidential Bid

Washington, Aug. 3 (AP)—Senator Robert A. Taft of Ohio expressed a willingness today to become a candidate for the Republican presidential nomination in 1940.

The son of the former President and chief justice stated his position in a letter to George F. Eyrich, chairman of the county Republican executive committee at Cincinnati, which had endorsed him for the presidential nomination.

"I shall be willing when the time comes," Taft said, "to give my consent to have my name designated as the first choice by candidates for delegates (to the National Republican Convention) throughout the state."

Likes His Work

Taft told Eyrich that his work as senator was "extremely interesting" and that he preferred it to any other job. He added, however, that he would not "run away from a harder job."

"Whether I am a candidate for any other office," he wrote, "is entirely up to the Republicans of Ohio."

The "unpleasant job" ahead of the next president, he said, is such that "no sensible man could be eager to assume it."

"Unless the whole present tendency of the government is redirected," he declared, "we cannot long maintain financial solvency or free enterprise or even individual liberty in the United States, but the leaders of the movement against New Deal fallacies must have the courage to incur the unlimited disuse of every vested interest whose selfish purposes conflict with a radical policy of reform."

"Furthermore," Taft continued, "they must work out the very difficult problem of continuing an adequate provision for the less fortunate people through relief, old age pensions, subsidized housing and the like, on the one hand, while on the other restoring financial solvency and the spirit of business initiative and expansion which alone can cure unemployment. This is not going to be easy or pleasant."

Taft told Eyrich that he was "greatly honored and pleased by the action of the Hamilton county Republican executive committee in endorsing him for the presidential nomination."

Text of Letter

Taft's letter, made public by his secretary, follows:

"Of course I am greatly honored and pleased by the action of the Hamilton county Republican executive committee in asking me to permit my name to go before the voters of Ohio as the first choice for president of delegates to the Republican National Convention."

"The unpleasant job which lies before the next president of the United States is such that no sensible man could be eager to assume it. Francis ("Bucky") Ashdown, 24, of Albany avenue extension, died at 1:15 o'clock this morning at the Benevolent Hospital from injuries suffered early Monday morning when his car collided with that of John Deleno of Brooklyn.

Ashdown's condition had been critical since he was admitted to the hospital with a very severe fracture of the skull and little hope had been held for his recovery.

Conscious only part of the time as he lingered between life and death it was impossible to learn from him just what caused the accident to the Plymouth car he was operating. After colliding with the Plymouth sedan of Mr. Deleno on the Jennings' curve just beyond Lake Katrine about 2 a. m., Ashdown was thrown from the car suffering terrible head injuries. Not only did he suffer a fracture of the skull but brain laceration and a fractured arm. When admitted to the hospital it was not believed he could survive the day, so bad were his injuries, but he lingered until this morning.

Bi-Partisan Coalition Takes Snap Out of Congress Titles

By W. B. RAGSDALE

Washington, Aug. 3 (AP).—The robes of leadership have faded in congress; the power has been sapped out of the titles.

A bi-partisan coalition has taken over so tightly that the men who make the plans for the Democratic party and bear the title of leader are embarrassed at nearly every turn and do not always know which way the program will jump.

As the session approaches its end, the Democratic leaders no longer control enough votes to carry on administration commands in either the senate or the house, though they have a paper majority big enough to accomplish any reasonable purpose.

That the opposing coalition is undeclared and informal in no way eases the task of the leaders. Perhaps neither the Republicans nor the Democrats who have participated in it would admit that any real alliance exists, though the effects have been apparent on every major issue of the session.

The very informality of its operations has added to the troubles of the leaders. They never could know exactly when the coalition would coalesce. The best they could do was try to hold enough Democrats in line to put through administration proposals.

Between absences and a split in the party, this was hard to do.

So deep was the split in the Democratic ranks that frequently all the Republicans had to do was stand as a unit and wait for enough Democrats to march out and join them.

The closing days of the session find the administration forces in disarray, if not complete rout. The lading bill, wangled through the senate by many compromises by the leadership, could not even get a hearing in the house. Leaders expected little better results for the housing bill. A deficiency appropriation bill was cut even more sharply than they had anticipated.

Many blame the Democratic defeats, in some measure, on the split between President Roosevelt and Vice-President Garner. That Garner has a hand in some measures the president did not especially like is certain. The vice-president pushed the Hatch bill and the corporation tax changes proposed by Senator Harrison (D-Miss.). These were signed into law by Mr. Roosevelt.

Priest Injured at Shooting Gallery

Kansas City, Aug. 3 (UPI)—Critically injured by another priest in a shooting gallery accident, the Rev. George W. King clung doggedly to life, winked to a friend and promised "we'll make it all right."

Father King, 38, and the Rev. John J. Murphy, close friends, were alternating shots with 22 pistols at an amusement (Fairyland) park. Father Murphy's gun clicked, apparently empty. As he put it down it discharged.

The bullet entered Father King's back only an inch from the spinal cord. It paralyzed his lower legs. Hospital attendants feared his lung was punctured also.

Father Murphy sped him to a hospital.

"Father King is my best friend," he said. "His boss is unthinkable. Pray, God, I have not mortally wounded him."

Police listed the shooting as an accident.

Father Murphy is superintendent of parochial schools of the Kansas City diocese. Father King is assistant at the Cathedral and was secretary to the late Bishop Thomas F. Lillis.

Father King was born in Watertown, N. Y., and was educated for the priesthood in Canada and St. Bonaventure's Seminary in New York. He came here in 1933 immediately after his ordination.

Father Murphy came here from Pennsylvania.

Gambling Boats' Crew, Deputies Play Own Game

Santa Monica, Calif., Aug. 3 (UPI)—The owner and crew of a luxurious gambling boat played a game not on the casino list today—a waiting game with boatloads of sheriff's deputies.

In poker-faced patience—a characteristic not unknown to men who handle cards and the roulette—Tony Cornero Stralla and 200-odd employees lounged about the floating casino, the Rex.

And just beyond reach of hoses playing from the ship, equally patient but—in some instances, at least—somewhat unsettled from the tossing of the waves, waited the deputies with warrants charging conspiracy to violate gambling laws.

Stralla, who openly admits he was a rum-runner in prohibition days, shrank at the would-be visitors that he had enough food on board to last a year. The Rex, in addition to its gambling salons, operated a large restaurant.

Attorney General Earl Warren, "admiral" of the deputies' fleet, quietly retorted:

"We are satisfied that the Rex is not doing business. If Stralla and his crew want to remain in seclusion three miles out on the ocean indefinitely, we can wait longer than they can."

Warren's men moved Tuesday night to close the four gambling ships which have been operating off the Southern California coast. On three, the games of chance were quickly closed and patrons sent ashore.

A truce permitted more than 500 customers to leave the Rex.

WHEN FDR SIGNED HATCH BILL**Niagara County Probe**

Lockport, N. Y., Aug. 3 (UPI)—District Attorney Joseph Ambrosko today aimed an extraordinary grand jury investigation in Niagara county at "two entirely different rings" of underworld fig-

ures—one which he said controlled vice and the other gambling. Ambrosko announced he was "out to nail" two gangs as he began preparing evidence for the investigation, which will open August 28. The investigation was ordered last week by acting Governor Charles Poletti, who designated Supreme Court Justice Frank J. Clegg of Syracuse to preside over a special term of supreme court.

Granite Discussed At Rotary Dinner

Ralph Harrison was the speaker at the Rotary luncheon held Wednesday at the Governor Clinton Hotel. Mr. Harrison's topic was granite, but his talk was not as hard to listen to as his subject topic might indicate, for he was well versed in the industry and passed around interesting illustrations of the operations of large quarries.

Granite from Barre, Vermont, the accepted center for monumental granite, which is known and used all over the world, was discussed at some length by the speaker, who outlined the courses of the granite from the quarry to the dealer. He also explained the operations for decorating and lettering of years ago as compared with present day processes, contrasting the work that was done by chisel and hammer, then by chisel and pneumatic hammer and the modern method of sandblasting. The rock has a crystalline granular texture and many varieties take a very fine polish being used for interior decoration and monumental work. Iron, steel and carbonium are used in the process.

There are many sections in which granite is quarried and many varieties are very massive and often quarried in blocks of large size and used for building purposes, where massiveness and durability are the chief requisites. Granite has had wide use in this country since about 1880, but has been used for centuries in older countries. The color of granite is somewhat varied and appears in light gray, white and pink.

The speaker was introduced by the program chairman, Sam Scudder.

Dr. Royal C. Broberg, who recently joined the local service club, was present. Visiting Rotarians were present from Phelps, N. Y., and Bridgeport, Conn., together with a number of guests.

WALLKILL

Walkill, Aug. 3—Mr. and Mrs. George Kaas have returned to their home in Brooklyn after spending a two-months' vacation at the home of Mr. and Mrs. Mattheus Dunn.

Mrs. Arthur Terrell is improving at St. Luke's Hospital after an operation last Thursday. Miss Louise Geyer, R. N., is the nurse in attendance and Dr. C. W. Beattie, the doctor.

Miss Lois Morehouse is spending a week's vacation with her aunt, Miss Helen Van Wyck, at West Nyack.

Mrs. J. A. Lipset spent the weekend at Garverine with relatives.

Miss Louise Van Alst, daughter of Mr. and Mrs. Daniel Van Alst, underwent a tonsil operation recently.

Mr. and Mrs. John Roach spent the weekend at Richmond Hill, L. I., and attended the 40th wedding anniversary of Mr. and Mrs. T. A. Mott. Mrs. Mott is Mr. Roach's mother.

The Mentz family picnic was held at the home of Mrs. Ada Billings at Pine Bush Wednesday.

Mr. and Mrs. James Bergen, Mr. and Mrs. Davis Fox and Mrs. Ida Suits of Fonda were weekend visitors.

Better Lock It Up

Laramie, Wyo. (UPI)—Kenneth Emerson is thinking of leaving his car in a garage for a few days, until his luck changes. In a two-day period, because of accidents in which he was involved, he had to buy three new fenders. Then someone stole a tire and wheel from his car.

Another Belgian Artist

Soon after issuing its Rubens

set the Belgian government unexpectedly released a single olive-green stamp in the 75 centimes plus 75c value to honor an earlier Flemish artist, Hans Memling (about 1430-1494).

Memling stuck to portraits and historical paintings and all his

works have a deeply religious flavor.

An indication of his piety is seen in the portrait of him on the stamp showing him with hands clasped over a Bible.

TILLSON

Tillson, Aug. 3—There will be no church service in the Reformed Church during the month of August.

Sunday school will meet as usual. The committees in charge of the fair to be held August 19

announces that contributions for fancy tables are to be sent to Mrs. Arthur Deyo, for the cake table

to Mrs. Chancey Rowe and 5 and 10 cent articles to Mrs. Ray Green.

Capt. William Deyo and wife

and the Rev. Mr. Emerick and wife attended the annual fair and

chicken dinner at the Katsbaan Reformed Church last week, Wednesday.

Mr. and Mrs. Weaver entertained over the weekend her sister, Mrs. Howard Teller and family, of Wallkill.

Mr. and Mrs. Haines spent the weekend recently with relatives in the Catskills.

Mrs. Arthur Deyo and Mrs. Bob Winkley are spending a two-weeks' vacation at Camp of the Woods, Speculator, N. Y.

Willis Keator is busy painting his house. He is changing the color of ivory and brown to white and green.

Capt. William Deyo and Jesse

Keator made a trip to Philadelphia and back Tuesday. Mrs. Deyo spent the day at Marlboro.

The Rev. and Mrs. Emerick leave Saturday to spend the weekend at Durham. On their return they will spend a few days at Katsbaan and Saugerties.

Old Documents

Syracuse, (AP)—Ernest L. Edgcomb, official referee, unearthed

two documents, each more than

100 years old, in connection with

an estate he is handling. One, in

book form and written in long-

hand, is entitled "Rules of Onondaga County Court of Common Pleas," dated September 4, 1807.

The other, dated July 9, 1790, is

a deed to 640 acres of land in

what then was part of Montgomery—now Onondaga County. It

was signed by Governor George

W. Clinton and bore a seal nearly

one-fourth inch thick.

Stamps In The News

By the AP Feature Service

Six colorful airmails commemorating two different events have just arrived from the Panama Canal Zone. The first event is the 25th anniversary of the opening of the canal and the two weeks ended July 22. The revocations and suspensions totaled 540 of which 176 cases will require proof of financial responsibility before applications for new licenses will be considered.

There were 71 revocations and 283 suspensions in New York City and vicinity and 94 revocations and 92 suspensions in the remainder of the state. In the Albany district, there were 21 revocations and 24 suspensions.

Drivers of this vicinity affected by the ruling of Commissioner Mealey were as follows:

Revocations

Theodore Weber, Olive Bridge, driving a car while intoxicated.

Donald Jacobellis, 14 Clinton avenue, Kingston, assault in third degree.

Suspensions

Vincent Shea, R. F. D. Wallkill, reckless driving.

Alfred Barringer, Samsonville, operating a motor vehicle in a manner showing reckless disregard for life and property of others.

Elmer Carney, 79 Lincoln street, Kingston, and Mrs. Irma M. Sterling, High Falls, insufficient fee.

other is the 10th anniversary of the beginning of air mail. All the stamps show mail planes soaring over various spots in the Canal Zone. Value are 5, 10, 15, 25, 30 cents and one dollar.

Heroes of Peace

A hoary tradition of the United States will soon be discarded. Postmaster General Farley has announced the post office will issue series honoring Americans who were neither politicians nor generals. These new stamps appear early next year—will pay homage to 32 men and three women who have served America in the arts and sciences.

At least a dozen other nations have issued stamps to honor their "heroes of peace" but the United States has preferred to remember only its political and military heroes, on its stamps. After months of sifting, authorities have chosen these for America's heroes of peace set:

Authors—Ralph Waldo Emerson, Samuel L. (Mark Twain) Clemens, Washington Irving, Louisa May Alcott and James Fenimore Cooper.

Poets—Henry W. Longfellow, James Whitcomb Riley, Walt Whitman, John Russell Lowell.

Artists—James McNeill Whistler, Daniel Chester French, Augustus Saint-Gaudens, Gilbert Stuart and Frederic Remington.

Educators—Horace Mann, Charles W. Eliot, Booker T. Washington, Frances E. Willard and Mark Hopkins (As far as can be determined, Mr. Washington will be the first negro to appear on a U. S. stamp.)

Inventors—Alexander Graham Bell, Eli Whitney, Samuel Morse, Elias Howe and Cyrus McCormick.

Composers—John Philip Sousa, Edward A. McDowell, Stephen Collins Foster, Victor Herbert and Ethelbert Nevin.

Scientists—Luther Burbank, Dr. Crawford Long, Dr. Walter Reed, John James Audubon and Jane Addams.

Undoubtedly the list will be supplemented later. Many Americans have urged that such figures as Thomas Edison, Will Rogers, Wilbur Wright and Edgar Allan Poe be included. But the list, as far as it goes, should be well received by all collectors.

Canada's domestic export trade registered a substantial increase during the first half of 1939, when shipments totalled \$461,987,491 compared with \$391,076,834 in the first six months of 1938.

Atlanta, Aug. 2 (UPI)—When W. H. Wilson took time off from his lunch stand to attend a railroad auction of unclaimed baggage he took a fancy to a trunk, got it on a \$4. bid, contents unseen. In the trunk Wilson found bonds and securities he said were valued at

"over \$1,000." Railroad officials declared the sale was valid.

Reflecting a heavy inflow of capital to Canada, the favourable balance of trade in securities between Canada and other countries totalled almost sixty-one million dollars during the first five months of 1939.

Tom Knight has been on the sick list again but is on the road to recovery now.

SUMMER PESTS: On A Picnic

PRIMPING POLLY is the gal who never can see there's work to be done, she's so busy getting ready to snare the handsomest boy. But don't worry, Polly still likes to eat.

HUSKY HARRY is mighty proud of his strength, and that makes him a hard man to get along with—especially when it's he decides to pick on to help him demonstrate his skill.

THE FIRST GRABBER can't even wait till the food's set out. "Pests" in these pictures are models, but you'll find the real thing at any picnic.

CAPRICIOUS KATY wouldn't miss this opportunity if it was Snoozer's first sleep in a week.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of the trouble is the kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood.

Most people pass about 3 pints a day or about 3 pounds of urine.

Occasional or scanty passages with straining and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids in the blood may be the cause of nagging backache, rheumatic pains, leg pains, loss of pep and energy; getting up nights, swelling, puffiness under the eyes, etc.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the kidneys to do their job of getting rid of the waste from your blood. Get Doan's Pills.

Meet Mr. Lochinvar

By Marie Bizard

YESTERDAY: The attractive young man who says he is Philip Callen, changes his mind and explains he is Lochinvar from the West. Cecily lends him \$2 which is returned with a sprig of rosemary the next day.

Chapter 12 Wonderful Idea

AURA came in a little later. She found Cecily bent studiously over her account books.

"Laura, I have a wonderful idea!" Cecily began without preamble. "We're going to have a party!"

"A party?" Laura repeated exasperatedly.

"Yes, a real party, for our customers. We'll make a poster this morning and—no, we'll make three posters. We'll make them in the form of an invitation to a buffet supper on Thursday night and we'll hang them at the inn, at the library and the postoffice. We'll invite everyone. Absolutely everyone!" Her eyes shone like stars.

"If you invite everyone, that includes strangers, doesn't it?"

"Good Heavens, you can't do that, Cecily! It'll cost a fortune and we wouldn't have room for everyone."

"Oh, yes we will," Cecily answered firmly. "We'll get Sue Calder to make gallons of ice-cream and a barrel of potato salad. We'll have a big crock of baked beans and I'll get huge hams and have them baked. You and I can make sandwiches of thin bread and butter. The whole thing, including having the dishes washed, won't cost more than twenty dollars and we ought to celebrate! We've been making lots of money and we owe a gesture to our friends."

"We can fill the place with flowers and light all the candles," Laura said, catching the spirit of the thing. Then suddenly she said, "Cecily, what brought all this on?"

Cecily felt a quick flame rush to her cheeks. How could you tell another girl that you were so foolish as to hope that your invitation would bring a guest whose name you didn't even know?

She said, "Laura, I want to invite a few people personally. I'll ask Mrs. Brewster and Mrs. Keefer and the Goodfairs. Would you mind making a few visits? I'd like you to ask Mr. Hemingway and..."

Laura said very quickly, "I think I'd better run up to see Mrs. Brewster and you'd better ask Mr. Hemingway."

"Nonsense," Cecily answered spiritedly. "Laura, he likes you! He'd be pleased as can be if you invited him. My goodness, he's in here for a new book every other day and I know he never reads them. He comes just to see you."

"Now, you're being silly, Cecily. He doesn't even know that I'm alive. When he meets me on the road, he bows very formally and keeps right on going."

Cecily sighed, "It's too bad I'm not more help. All I can say is that you sometimes have to work on a man, particularly a hide-bound New Englander. However, we'll take up that problem later. Now, let's get organized. I think I'll get the posters out at once. Meanwhile, if you'd run over and ask Sue Calder to come over, we could arrange our menu."

When the gay and inviting crayons on posters were finished, Cecily said, "Laura, on your way past the inn will you leave this one with Mrs. Keefer? And, by the way, you might ask her for the names of any new guests who arrived last night. I... that is... we don't want to omit anyone."

"I doubt if anyone arrived last night. Not in all that storm," Laura answered, tucking the posters under her arm.

A little later she said, "I was right. There hasn't been a new guest since last Tuesday. However, Mrs. Keefer says she booked for the rest of the season."

Anticipation

CECILY felt swift disappointment swoop over her, dimming her bright mood.

She thought: If he's here, he'll surely come Thursday night. A man who would be so bold as to walk into my place uninvited to spend the night, will not be timorous about accepting an invitation like this.

She plunged into her plans. Deep in them, she forgot all about her good intentions to tell her aunt about Philip Callen.

In the excitement of running her shop and planning for her party, which was but three days off, she forgot all about it. Also, Philip was running down to New York for a few days. Not, however, without promising to return within the fortnight. Olivia and Gloria were motorizing over to Murray Bay to visit friends, and the other two girls were returning to Newport.

Cecily was left to the freedom of the house and her thoughts.

The day before the party, she ran in to see her mother, Jane Hollings, at her dress shop and came out with a new frock. It was fashioned of soft denim sprigged with small blue flowers. It had a round frilly collar of white lace and organdy and cuffs of the same at the edge of the short puffed sleeves. It was an extravagance that she could neither afford nor resist. Her other frocks were sports or of the tailored type. She wanted something soft.

Continued tomorrow.

nearly as expensive as it is in the winter time.

A timid little man crept up to the inspector's desk in the police station:

Timid Little Man (shyly)—My wife has disappeared, inspector.

Inspector—When?

Timid Little Man—Two weeks ago.

Inspector—Why didn't you come to use before?

Timid Little Man—I just couldn't believe it, sir.

Old Quaker—What kind of people live here?

Old Quaker—What kind of people did they live amongst where they came from?

Newcomer—Oh, it was a good place to get away from. The people were always taking advantage of me and were small and mean.

Old Quaker—I am sorry, neighbor. The man did. He quarreled with all who would quarrel and soon moved on.

In a few months another family came to the same town. The Quaker met the new neighbor at the well. The same question was asked by the stranger. Again the Quaker asked his question:

Newcomer—What kind of people did we have where we moved from? The best and dearest people on earth. We wept in sorrow to leave them.

Old Quaker—Be of good cheer! They will find just as good and peaceful people here.

And the stranger did.

Man is largely the architect of his own fortunes. The disturbing elements we experience in life are largely in our own mind. If we look on things with a sour eye, they are naturally going to appear sour to us. If we see things under bright colors, that brightness will be reflected back at us. We must first get a proper disposition for ourselves, then we shall find that we live in an atmosphere that fits such a happy disposition.

Gus—Are you fond of indoor sports?

Wanda—Yes, provided they go early.

Mrs. Newly-Wed—I want to grow some trees in my garden.

Florist (handing her a packet of seeds)—Certainly, madam.

Mrs. Newly-Wed—Can you guarantee these?

Florist—Yes, madam, we can.

Mrs. Newly-Wed—Will the trees be tall and thick in the trunk?

Florist—They should be, madam.

Mrs. Newly-Wed—And quite strong at the roots, I suppose?

Florist—Oh, yes, madam!

Mrs. Newly-Wed—Very well, I'll take a hammock at the same time.

Light of New York By L. L. STEVENSON

Not so long ago, Arthur French played before 50,000 persons. Now he often watches 50,000 persons at play. Back in 1928 he was captain of the Harvard football team and just about single-handed defeated Yale in the traditional game. Two days after his graduation, he had a job. Punching tickets at Manhattan beach. Since then, he has done just about every chore, except chef in the kitchen about the resort. Now he is general manager and holds the rank of vice president of the Joseph P. Day Enterprises. He married Mr. Day's daughter and lives a happy home life over in Short Hills, N. J. He still keeps up with athletics to a certain extent. Manhattan beach is two miles long. At least 10 times a day, he travels the entire length. Then, too, in his spare time, he invented a football and basketball, one-third regulation size, to train youngsters for those games when they grow up.

Instead of being stranded, vaudeville is now sandied. At least it is out at Manhattan beach. To house the week-end performances, which read like the bills of the old Palace, Mr. French has constructed a modern amphitheater with a seating capacity of 10,000. The stage resembles the Hollywood Bowl but is of original design. It has private offices and dressing rooms for the stars and a private sun porch where the artists can enjoy a day at the beach out of reach of autograph hounds. John Philip Sousa III, grandson of the great bandmaster, who opened the old Manhattan beach bandstand, is the band leader and he swings the marches of his famous grandfathers. Recently he announced his engagement to Miss Jean MacDonald of Hazleton, Pa.

Getting back to General Manager French, the Harvard star of other days. He has still another connection with athletics. Under his supervision are 82 handball courts, 22 tennis courts, 15 basketball courts, several championship swimming pools and numerous other activities, including bridge classes.

In the opinion of Earl Robinson and Alex North, composers for the Federal theater production, "The Life and Death of an American," it is easier to compose a new song than to find an old one, especially if the latter happened to be a national hit. Among the recordings called for by the script are "Yes We Have No Bananas," "Missouri Waltz," and "Turkey Trot." In the first music shop visited, Robinson and North encountered a girl of about 18. She had never heard of "Yes, We Have No Bananas," but thought it was a swell title. The composers went out feeling like Rip Van Winkle.

The Columbia university library finally yielded "Yes, We Have No Bananas," but could do nothing about "Turkey Trot" or "Missouri Waltz." From the New York Public library came the sheet music of "Turkey Trot" and when the play opened, a pit orchestra had to be substituted for a gramophone. The grandmother of a member of the cast donated the "Missouri Waltz" record. Then it was learned that there was no "Over There" record. A long search disclosed one at the bottom of a pile of old records in a Ninth avenue second-hand furniture store.

In the old days, it used to be the cellar. Then it was the basement. Now, according to what I was told at the Court of Flame at the World's fair, it is the "Rumpus Room." It seems that the "Rumpus Room" is a place where you can have a lot of fun and make a lot of noise. The one at the fair has just about everything in the way of athletic apparatus except a bowling alley. And there's an easy chair and book table, too. Curiously enough, it's heated with a gas furnace. And there was a time when I was put into being sent down to the cellar. That wasn't all there was to it, however. When I got down there I had to sort potatoes.

Pointing to a small boy in the first row, he said: "Isn't that you?" "Yes—that's me, all right," the prisoner replied.

Then, pointing to a tall lad in the back row, Judge Hellam said: "And that's me. Sorry I had to do it, but it's the law."

Mrs. Daisy Herbert Totes Ice Around at Barnegat

Barnegat, N. J., Aug. 3 (UPI)—No ice man with bulging muscle lumbered up your doorstep in this little seashore town.

Instead, up steps Mrs. Herbert, soft-spoken and frail-looking, who drops a 50-pound piece of ice in your box with the same ease with which she cleans her house when her ice-carrying chores are done.

She's just a wisp of a woman—weighing about 95 pounds in the summertime when business is brisk and a little more in the off-

season—but four times a week she serves her 130 customers.

They use about four tons of ice a day in the summer; less than half that in the winter.

Mrs. Herbert drives a three-quarter ton truck on her 75-mile route.

Since 1918, when her husband's health failed him, Mrs. Herbert has been carrying on.

She operated a milk route for five years and often served ice to milk customers who ran short.

She turned exclusively dealing in ice after concluding there was more profit in that than in milk.

She has a son, 28, but doesn't ask her age for "we women don't tell."

There is neither air nor water on the moon.

Financial and Commercial**Stocks Made Big Gains Wednesday**

Stocks made the best gain yesterday since July 22 while volume reached a total of 1,030,000 shares. Industrials opened about half a point below Tuesday's closing prices, but began to move forward by noon and at the close showed an advance for the day of .90 point to 144.26 in the Dow-Jones averages. Utilities spurted ahead for a gain of .86 point, to 27.10, high mark for the year. Railroads showed a gain of .23 point, to 29.49. The action of the market is seen as reflecting approval of the defeat of the President's spending-lending bill, a belief that the long period of "pump priming" probably is over, at least well on its way out and that Congress at last is inclined to assert its prerogatives and have something to say about affairs of government.

The lessening of fears of government incursions into the field of private industry was reflected particularly in the market's attitude toward the utilities, which made a two years high as there was large scale buying in such issues as Consolidated Edison, Columbia Gas, Engineers Public Service and American Water Works.

On the London market both rail and industrial averages were down. Paris was a little lower and Amsterdam was irregular.

Commodities trended lower, the Dow-Jones index showing a slight loss. Cotton futures declined rather sharply toward the close with losses of eight to 12 cents. Worth Street cotton goods dealers reported a fairly brisk demand with prices on standard articles unchanged from a week ago, but with a firming tendency and advances of one-eighth cent a yard before the end of the week locked in. There was nervousness over Canadian wheat crop prospects and wheat at Chicago closed 1 cent a bushel higher. Rubber declined and cocoa, cottonseed oil and silk reacted mildly.

U. S. Rubber, which had a sales increase of 30 per cent in the first half reported earnings for that period of \$4,465,397, or \$1.18 a common share after preferred dividends. Compares with a net loss in the first half of 1938 of \$239,213.

Goodyear's 300,000,000th tire will be lifted from the mold on August 9. It will be the largest ever manufactured for use on a motor vehicle, being a yard in cross-section, with an overall diameter of 10 feet and of 12-ply construction. It is one of 12 castings which will be used on a snow cruiser in Antarctic exploration. This year also marks the centennial of the discovery of vulcanizing by Charles Goodyear and the th anniversary of the building of the first pneumatic tire.

Electric output last week was the second highest on record.

Steel operations in the Pittsburgh district expanded during mid-week from the 50 per cent of Saturday and activity in the Youngstown district is increasing.

On August 1 blast furnace activity was placed at 53.4 per cent of those available, as against 49.6 a month ago. Best showing since November, 1937.

Iron ore shipments on Lake Superior for July totaled 6,309,935 tons, 93 per cent over a year ago, 13 per cent ahead of June and the highest since October, 1937.

On August 1 blast furnace activity was placed at 53.4 per cent of those available, as against 49.6 a month ago. Best showing since November, 1937.

Some earnings reports for second quarter of 1939 Standard Oil of California \$3,891,587, 29 cents a share, vs. \$2,282,919, 61 cents a share in 1938 quarter. Paramount Pictures, net of \$8,300,000 vs. \$391,945. Bristol-Myers, \$147,289, vs. \$383,059. General Steel Castings net loss of \$100,105 vs. loss year ago of \$412,061. Willys-Overland net loss of \$391,829 vs. loss last year of \$505,619.

Engineers Public Service had net of \$4,795,566 in the 12 months ended June 30 vs. net in the preceding year of \$2,648,889.

Settlement is looked for this week in the month old strike of UAW-CIO tool and die workers in General Motors plants.

The United States has denounced, effective next January, its 18-year-old treaty of commerce and navigation with Japan. That sets the stage for a possible embargo on shipments of U. S. raw materials to the Nipponese. Meanwhile, the Japanese blockade threatens U. S. commercial relations with China.

This chart shows what America has to lose if the situation over there goes from worse to worst. (Not shown among U. S. investments in China are hopelessly defaulted bonds of \$300,000,000 face value.) The Washington sources that made these estimates had no figure on property owned by American nationals in Japan—presumably because it doesn't amount to much. Figures on exports and imports are for 1938, the last pre-war year.

Song Writers in City On Way to World's Fair

Elmer Brost, theatre organist, who turned song writer to write with Bell Dowdall the souvenir song for the New York World's Fair, paid a visit to Kingston today enroute to New York city where Buffalo Day will be observed at the fair on Friday. The two song writers paid a tribute to Kingston and said that on their travels from Buffalo to New York they had not encountered a more friendly town than Kingston.

The song, "The Gates of Old New York Swing Open to the Fair 1939" is an official souvenir song of the fair.

While stopping in Kingston the two co-writers visited Dr. Maurice H. Sill of 84 Main street whom they knew in Buffalo. At the fair the two Buffalonians expect to meet Taylor La Guardia and convey to him the greetings of the mayor of Buffalo and also meet Grover Whelan, president of the fair.

Belle Dowdall also has been a contributor of poems to the Wallkill Valley World.

Local Death Record**Rescue Ships, Planes Baffled by Mystery Ship**

Jacksonville, Fla., Aug. 3 (UPI)—Ships and aircraft speeding on a rescue mission off the lower Florida east coast found no trace today of a mystery ship which sent out a fantastic series of distress messages during the night.

A plane from the Miami Coast Guard base scanned calm seas for more than three hours in the vicinity of Key West—one of four positions given by the unidentified radio operator who reported his vessel was afire and sinking.

Various commercial and coast guard radio stations received the name of the ship repeatedly as Dunkirk, but the only vessel registered by that name, a British oil tanker, was reported at Rotterdam.

Lieutenant V. O. Johnson, pilot of the coast guard plane, said he had discovered nothing to indicate whether the infrequent incoherent messages were based on fact or fancy. The coast guard, however, decided against further search by air unless new information were received.

The first of several rescue ships to reach the last position reported was the fruit steamer Ceiba. Her master radioed that he found no sign of a ship in distress but was continuing the search in the Bahama Islands.

Early today the sender of the SOS calls said the crew had taken to lifeboats and the craft was

sinking 90 miles southwest of Miami.

Fire From Blow Torch Slightly Damages House

Flame from a blow torch set fire to the porch roof of the apartment house at 143 St. James street, owned by N. D. Murphy, shortly after 5 o'clock Wednesday afternoon. The fire department responded to a still alarm and used chemicals to extinguish the fire.

According to the fire department Thomas Wolf was using a blow torch to burn off the paint on the porch before repainting it and the flames from the torch set fire to the dust and debris under the wood shingles on the porch roof.

A chimney fire at 23 Post street Wednesday resulted in a call to the fire department. The house was occupied by Bert Kline and Michael Carney. There was no damage.

The outing which will be a basket picnic has been arranged for the members of both clubs, their families and friends.

Bathing can be enjoyed by those attending. Various games including softball will be provided for and ice cream and soda will be on sale.

Delegates Named By the 40 and 8

At its recent meeting in Highland, the Ulster County Volture, 381, Les Societe des 40 Hommes et 8 Chevaux, elected delegates to the state and national American Legion convention, and transacted other important business.

Delegates to the state convention in Albany September 6, 7 and 8 are R. Earl Haley of Ellenville and John Cleveland of Kingston, with Jessie H. Alexander of Highland and Gus Paulson of Ellenville, alternates.

J. H. Alexander was chosen as the delegate from Ulster to the national convention in Chicago September 27 through 29, and Gus Paulson an alternate.

Chef de Gare Haley was endorsed as candidate for the office of Grand Cheminot of the third District including Albany, Columbia, Greene, Schoharie, Rensselaer and Ulster counties.

Guest speaker at the meeting was Zacharias D'Jmar of Albany, who dealt with the relation of the 40 and 8 to the American Legion especially along the lines of promoting child welfare, Americanism and tolerance.

Guests from Orange county accepted a softball challenge from the Ulster 40 and 8 and the game will be played at some future date to be announced.

ARGUMENT FOR PEACE—Tears instead of cheers were contributed by these young Frenchmen at the martial review of St. Cyr military academy, the "West Point" of France. They bawled each time an artillery piece boomed.

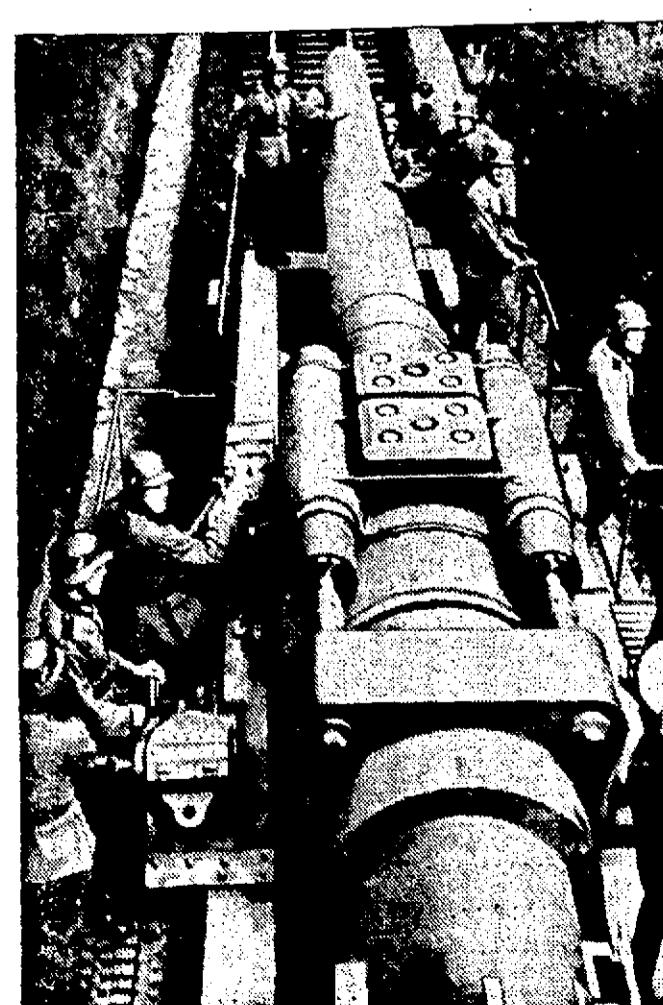

FIND FIDO!—If you look close you'll see "Pooch," whose master put an end to his roving at Cape May, N. J., beach.

LABOR-A CHOICE—No better person the building construction field, could be named," said Manuel long dominated by A. F. of L. Quezon, hailing F.D.R.'s nomination of Francis B. Sayre (above), bushy-browed brother (above) as U.S. High Commissioner of CIO Leader John L. Lewis. Signer to the Philippines.

'BIG BERTHAS' NOT BIG ENOUGH FOR NAZIS

SHOOT TO KILL!—With these mobile railway cannons reminiscent of Germany's wartime "Big Berthas," Nazis have bolstered their defense program. German sources say the shell's "nearly as tall as a man, weighs 660 pounds."

WEAPON GUESSING—Shock absorbers to which the railway cars are anchored, thus steady the gun when it fires, are but a few of the mechanical details perfected by Nazis. Experts believe the "Big Berthas" fired a 268-pound shell.

POLAND HARVESTS OTHER CROPS THAN CRIMES—Peasants eagerly greet aging, white-haired Pres. Ignace

who inspected wheat harvesting near Spala, Poland. Note crude tools used to harvest crop, which is reported excellent this year.

settled and there would be no contest."

The fans in the grandstand became uneasy at 9 o'clock, starting time for the game, but sat around for an hour or so before a movement started for a return of their money. Realizing that there might be a rush on the box office, Davi asked for police protection, and officers were detailed to the park.

Since no ticket stubs had been issued, the management offered other pasteboards good for tonight's game. Some of the fans accepted them, others demanded their money back. The money was refunded to those who insisted. Others may procure their money at the box office this afternoon until 5 o'clock, Davi said, but expressed the hope that they'd go to the game instead.

Gad, Sir, London Traffic Is Bothersome

By William McGaffin
AP Feature Service Writer

London—You probably think the right hand drive and keeping to the left are the hardest problems confronting an American autoist in England.

That's what I thought too, before I bought the car. But let me enumerate some of the real obstacles I have encountered to smooth motoring.

1. Bicycles

2. Double-decked busses

3. Pedestrians

4. London streets.

5. London signs.

6. Distances in London

7. Uncertain weather

One beautiful day I rushed from the office, grabbed the wife and said, "Come on, we're going to take advantage of our glorious sunshine." (We talk that way about the sun, here.)

We started out. Our progress was immediately retarded by

swarms of bicyclists who wheeled in and out as if they owned the streets, hordes of double-deck busses, piloted by dirty drivers, who roared in and out as if they owned the streets; and swarms of pedestrians who sauntered in and out as if they owned the streets

(not to mention the other motorists).

The pedestrians, however, have the drop on everybody thanks to the protection of a kindly law.

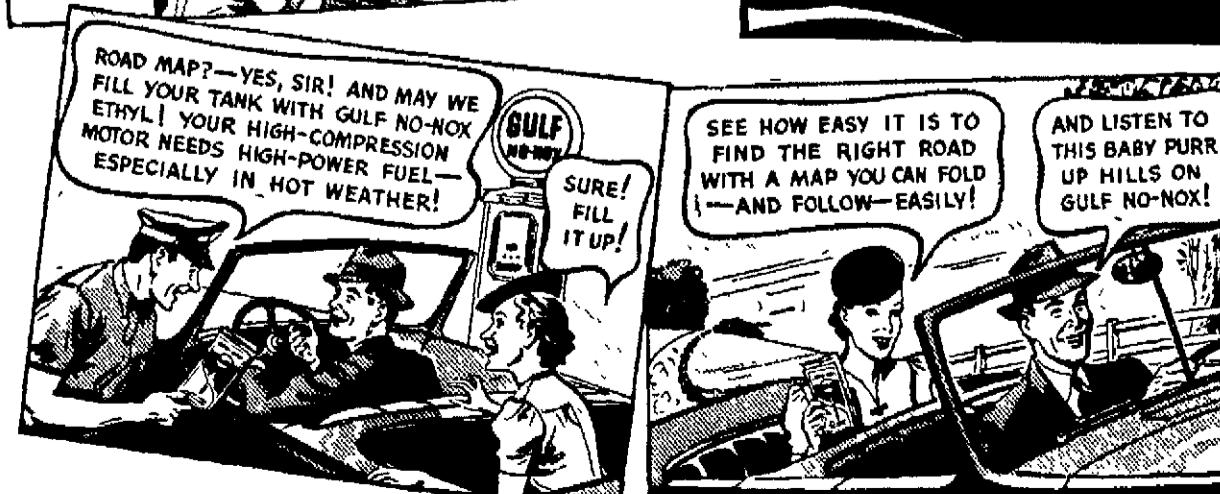

Yet this combination of narrow, twisted paved cowpaths teeming with bikes, busses and people wouldn't be so bad if it weren't for that good old English game called "Find the way out of London."

The game arises from the fact that there are comparatively few signs pointing the way. Those which do exist are tacked up in a location scientifically calculated to send you on the wrong road. You never can view the sign until you have passed it.

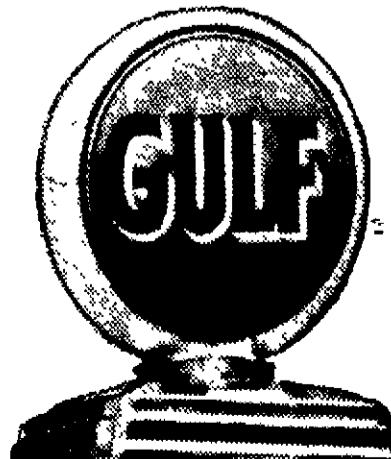

Even the name plates are missing on half the streets.

And speaking of climate....

Before we had ever traveled the hour which, on the average, is required to get out of the world's biggest city, the sun was eclipsed by some of the blackest clouds I have ever seen, and a cold wind whirled around us.
